

# Subjects

Exam questions cover the subjects below.

Some questions on estimation, calculation, measurement and statistics require doing calculations.

<b>Mass Properties Skills</b>	<b>Influence</b>	<b>Engineering Knowledge</b>	<b>Process</b>
Estimation – Weight, CG and Inertia	General	General	General
Calculation – Weight, CG and Inertia	Safety	Statistics	Data Sources
Measurement – Weight, CG and Inertia	Performance	Materials	Data Check
MP Coordinate System		Manufacturing	Reporting
Data Bases&Standards		Vehicle Components	Mass Properties Control
Mass Properties Engineer Responsibilities		Software	Target Achievement
		Contracts	Systems Engineering
		Buoyancy	Procedures
